

Dear Parents and Guardians,

I would like to welcome students and families to a new year at Fruita 8/9 School! As summer comes to an end, the anticipation of the school year begins for students, families, and staff. In that anticipation, oftentimes questions arise in regard to opportunities for students at Fruita 8/9.

Here is a preview of opportunities that we have for our students pending participation based on State and District guidelines as we work through this pandemic.

We have multiple athletic activities that students can compete in throughout the year. In addition, we have several clubs that meet from chess club to Sources of Strength club. Several organizations plan activities for students including dances, socials, games, and fundraisers. This happens throughout the school year.

In addition, we offer students the opportunity to increase rigor in their academic schedules. Students can advance in Math, Language Arts, Social Studies, Science, and in elective courses. We offer Advanced Placement courses for students to excel in Social Studies and Science.

The staff at Fruita 8/9 has a commitment to working and communicating with parents as effectively and efficiently as possible. Students will have an advisory in which he or she will be working collaboratively with teachers in making improvements in proficiency as well as working in an advisory relationship in regard to things such as achievement, social emotional learning, study habits, and career development. Our teachers are supportive and work hard to meet student needs.

We are looking forward to having a great school year. Thank you for your support!

Sincerely,

Jason Plantiko
Principal
Fruita 8/9
